

ALLEN DAY

Data Engineering · Analytics Engineering · SQL at Scale · Trustworthy Data Pipelines

Hawthorne, CA (Santa Monica metro) · +1 (314) 934-4168 · allen.day@me.com · [linkedin.com/in/mrallenday31](https://www.linkedin.com/in/mrallenday31) · github.com/Allenday28

SUMMARY

Data engineer with 10+ years of commercial context — building the systems and analyses that turn messy multi-source data into decisions that move revenue. Focused on ETL pipelines, SQL at scale, and data lineage / provenance — the operational plumbing that makes analytics trustworthy. Currently shipping data tooling on GitHub (etl-pipeline, sql-query-analyzer, data-provenance-tracker, data-integration-toolkit) and building DermaMind AI, a deployed ML product (MS Data Science capstone). Looking to apply data-engineering craft inside a team that values both technical rigor and connection to the business.

CORE COMPETENCIES

Data Pipelines & ETL · SQL Engineering & Query Optimization · Data Lineage & Provenance · Entity Resolution & Schema Mapping · Python (pandas, pytest) · YAML-driven Configuration · CI / GitHub Actions · Docker · Tableau / Power BI · Salesforce · Cross-functional Stakeholder Communication

OPEN-SOURCE PROJECTS · github.com/Allenday28

- **etl-pipeline** — Configurable Extract / Transform / Load framework with YAML config and CLI; modular extractors, transforms, loaders; pytest-backed; CI on Python 3.10–3.12.
- **sql-query-analyzer** — Parses SQL, surfaces joins, flags potential issues, and suggests improvements; foundation for query review at scale.
- **data-provenance-tracker** — Lightweight lineage tracking for pandas DataFrames with graph export; answers “where did this number come from?” cheaply.
- **data-integration-toolkit** — Fuzzy entity resolution and schema mapping across heterogeneous sources when there is no shared key.
- **DermaMind AI** — Live ML product for personalized skincare analysis; MS Data Science capstone deployed at personal-analysis-skincare.deployad.app.

PROFESSIONAL EXPERIENCE

Strategic Partner Account Manager | Convert Via 07/2025 – Present

Remote / Los Angeles, CA · Performance marketing platform · Data-driven portfolio analytics across 50+ global partner accounts

- Operate and maintain partner-performance reporting in **Salesforce, Excel, and Tableau** — define KPIs, build cohort views, and surface accounts trending into risk before they churn.
- Built **internal tracking systems and reporting dashboards** that standardized how partner status, performance milestones, and escalation risks are communicated across teams.
- Delivered **120% of plan** by translating performance data into specific, account-level growth recommendations.

Territory Account Manager | Swedish Match / Philip Morris International 06/2021 – 02/2024

Los Angeles, CA · Data-driven category gap analysis across 140+ retail accounts

- Built a **category gap analysis** for the Shell / R&M Pacific distribution chain: identified 8 of 25 stores missing the lead SKU, quantified **1,480 lost units and \$9,200 in recoverable sales**, surfaced 640–1,386% YTD growth on the adjacent SKU family, and packaged a **\$10,200 net-new revenue + rebate recommendation**. End-to-end analytics work, from messy retail data to business recommendation.

- Tracked **assortment, distribution, and compliance data** across the territory; identified root causes of underperformance and defined corrective actions.
- Maintained data hygiene in CRM and submitted **weekly forecasts and progress reports** to district and regional leadership.

Key Account Manager | British American Tobacco (BAT)

07/2014 – 12/2020

Los Angeles, CA · Execution-quality analytics across 1,200+ accounts

- Tracked **execution-quality and compliance metrics** across the territory — identified root causes of underperformance and implemented corrective action plans grounded in the data.
- Developed documentation and training materials that codified what “good execution” looks like, scaling consistency across a distributed team.
- **Reynolds American Gold Award** (Long Beach, Jan 2020) and **WOW Silver Award** (Mentorship, Sept 2019) for operational excellence.

Account Executive — Enterprise Portfolio | Delta Air Lines — Fortune 100

05/2011 – 07/2014

Minneapolis–St. Paul, MN · Bespoke client reporting on a \$20M+ enterprise portfolio

- Directed a **\$20M+ enterprise account portfolio with 95%+ retention**; managed multi-stakeholder relationships, quarterly business reviews, renewals, and escalations across Fortune 500 customers.
- Developed **bespoke reporting and account-health dashboards** for each client — proactive, data-backed outreach that drove expansion conversations and renewal certainty.

TECHNICAL SKILLS

Languages: Python, SQL, R, Bash

Data & ETL: pandas, pytest, SQLite, YAML, Jupyter

Engineering: Git, Docker, GitHub Actions (CI), pytest

Visualization: Tableau, Power BI, matplotlib

CRM & Sales Tools: Salesforce, Microsoft Dynamics, Outreach.io, LinkedIn Sales Navigator

ML / Product: Deployed DermaMind AI (live product, MS Data Science capstone)

EDUCATION

Juris Doctor (J.D.) — In Progress | Trinity Law School

M.S. Data Science — In Progress | University of Phoenix

Focus: Consumer Behavior & Market Analytics · Epsilon Pi Tau Honor Society

B.S. Sports Management | Fontbonne University

St. Louis, MO · Collegiate Student-Athlete
